REMEDI™

Multi-function LED Patient Bed Light | Ambient | Reading | Exam

- Addresses the ambient, reading task and examination requirements for the patient bed environment
- Unique, open design reduces the visual impact and overall cross-sectional size while providing the necessary durability
- Four distinct optical compartments eliminate the need to physically manipulate any portion of the luminaire – a time saver for the medical staff and safer for the patient
- Illuminance of 100+ foot-candles on the bed surface with a 5:1 max/min
- Optional full-length, indirect night light with either amber or white LED light source
- Standard antimicrobial finish inhibits the growth of microbes
- Available in 3000K, 3500K and 4000K CCTs

EVEXIA™

Patient Bed Light

- Provides ambient and reading illumination for the patient bed environment
- Clean form reduces visual impact and simplifies routine cleaning
- Durable die cast and extruded aluminum housing
- Standard antimicrobial finish inhibits growth of microbes
- Optional tunable white light for ambient illumination
- Available in 3000K, 3500K and 4000K CCTs

MediMode™

Recessed 2x4 LED Patient Room Ambient | Reading | Exam

- Designed for the varied illumination requirements at the patient bed
- Provides a low-glare, indirect solution for ambient and reading task illumination
- Dedicated compartment delivers illuminance of 100+ foot-candles for the critical examination functions
- Optional full lensed door simplifies cleaning, protects patient from contamination and meets IP65 and UL Sanitation requirements
- Removable service trays for key components simplifies maintenance activities
- Available with integrated low voltage controller to allow control from a patient pillow switch
- Available in both 2x4 and 2x2 models with standard antimicrobial finish that inhibits the growth of microbes
- Available in 3000K, 3500K and 4000K CCTs

NiteWay™

Patient Room LED Night Light

- Optical design limits glare while delivering even illumination on the floor plane
- The smooth form facilitates simple cleaning while the polycarbonate lens and die cast aluminum faceplate provides durability
- Low profile design is available in either a vertical or horizontal orientation
- Standard antimicrobial finish inhibits the growth of microbes on painted surfaces
- Wet location listed
- No exposed fasteners
- Available in 3000K CCTs and amber (590nm)

PATIENT BED LIGHTS

LiteFrame NSF2

Commercial LED Downlight - NSF2 Splash Zone Rating

- Remote phosphor technology delivers color consistency from fixture to fixture while providing energy savings and lower maintenance costs
- Designed for optimal life and lumen maintenance
- Wide selection of reflector finishes; clear Alzak reflector has anti-microbial finish
- Approved for NSF2 Splash Zone applications
- 0-10V dimming is standard
- Available with 3000K, 3500K and 4000K CCTs and 80 CRI

LTRX

Recessed 2x4 LED Patient Room Light: Ambient/Exam

- Designed specifically to provide comfortable ambient and high-level examination illumination
- Standard with 90 CRI with R9>50 for excellent color rendering
- Enclosed lens protects patients against contaminants and simplifies cleaning
- Lens gasket option and wet location listing available
- Available in both 2x4 and 2x2 models with standard antimicrobial finish that inhibits the growth of microbes on painted surfaces
- Available in 3000K, 3500K and 4000K CCTs

LiteFrame IP65

Commercial LED Downlight - IP65 option

- Remote phosphor technology delivers color consistency from fixture to fixture while providing energy savings and lower maintenance costs
- Designed for optimal life and lumen maintenance
- Wide selection of reflector finishes; clear Alzak reflector has anti-microbial finish
- IP65 trim option provides protection from dust and moisture intrusion
- 0-10V dimming is standard
- Available with 3000K, 3500K and 4000K CCTs and 80 CRI

LiteFrame IP65

Commercial LED Downlight - IP65 option

- LED backlit, sand-blasted panels along the edges of the mirror provide even illumination and excellent facial rendering
- Locking feature secures mirror to housing
- The housing comes with a standard antimicrobial paint finish.
- Available in three sizes (18"x40", 24"x40" and 36"x40") and two light outputs
- All models are ADA compliant

OBSIDIAN™ MESSAGE SIGN

PRODUCT OVERVIEW

The Obsidian Message Sign provides a reliable method to highlight critical messaging. The high contrast face panel clearly communicates the message in visible red or green letters when the sign is energized. In the Off condition, the face becomes black without any message bleed through - eliminating any confusion. A variety of standard message panels are available with custom messages available upon request.

- Optional chart light is available
- Antimicrobial finish

RM4DI BED LIGHT

- Two Pull Chain options are available to control reading and ambient lighting
- Antimicrobial finish
- Internal drivers

LUMINAIRE SPECIFICATION

Exam Lighting – During medical examinations, lighting requirements demand an average of 100 fc on the bed. Metalumen's bed lights with full light output are designed to meet this requirement to ensure Medical practitioners can accurately evaluate the patient.

Optical Systems – Metalumen's Bed Light luminaires are offered with direct and indirect lenses to help reduce dust and particles of filth on the luminaire to help facility cleaning process.

Luminaire Finish – Cleaning in the health care industry is a process to remove microorganisms, and particles of filth. Metalumen's luminaires are offered with Anti-Microbial powder coat finish for the luminaires to help with the disinfection process.

Controls/Switching – Luminaires come standard with 0-10v 1% dimming drivers to optimize their output for ambient or reading. Luminaires are offered with 2 or 4 position pull chain to control with luminaire direct or indirect light. Consult the factory for other luminaire controls for the Bed Lights.

Colour Rendering – In health care environments it is important to provide accurate medical diagnoses. To prevent the incorrect diagnoses of cyanosis; when oxygen levels in the blood are dangerously depleted and is indicated by blueish or discoloured skin. Metalumen's Bed lights are offered with 3 step McAdam Eclipse 90 CRI LEDs with high R9 to achieve COI (Cyanosis Observation Index) compliance of less than 3.3. Consult factory for Circadian Rhythm stimulant Lighting.

For more information, please visit www.metalumen.com Metalumen reserves the right to change specifications for product improvement without notice. 20200716

SECURESEAL HC04 LED. RECESSED

- The SecureSeal Ceiling Light offers a quality recessed troffer for sterile environments including operating and diagnostics, treatment rooms and laboratories. Available in 1x2, 1x4, 2x2 and 2x4 sizes for T-bar or plaster ceilings.
- 3000, 3500 & 4000K

CARLISLE TC5 LED. RECESSED. DIRECT

- Up to 139 LPW
- Excellent lumen packages ranging from 2600 to 8200 lumens
- One-piece, easily removable lens for quick maintenance and room side access to driver

MIRA SERIES LED LIGHTS

Amico

Amico

SKYLINE SERIES
Over bed LED light

Inspired by the aerodynamic shape of an airplane wing, the Amico Skyline Series Overbed LED Light offers a sleek and elegant design that meets the needs of both the patient and caregiver. When placed on the headwall above the patient bed, the Skyline overbed light delivers high level illumination and light distribution to allow caregivers to perform thorough examinations with ease while additional reading and ambient functions improve patient comfort and well-being.

MULTIPLE DIRECTIONAL LIGHT CONFIGURATIONS

Reading Light

Ambient Light

Examination Light

Night Light

SLIMLINE SERIES
Over bed LED light

The Amico Slimline Series Overbed LED Light offers a minimalist design that meets the needs of both the patient and caregiver. Incorporating the latest LED edge-lit technology the Slimline overbed light is designed to provide high level illumination and light distribution while meeting the aesthetic requirements of the patient room. With infection control in mind, this fixture is designed with seam-free surfaces and clean edges.

MULTIPLE DIRECTIONAL LIGHT CONFIGURATIONS

Reading Light

Ambient Light

Examination Light

Night Light

SOLAR SERIES
Eclipse 2 x 4 LED Light

We designed the Solar Eclipse 2 x 4 LED Light to provide you with all of the functions a patient room requires conveniently in one fixture. This modern multifunction patient room fixture offers Reading, Ambient, and Exam functions as well as an optional Night Light, to provide the patient an optimal healing environment while maximizing clinical efficiencies with proper lumen output and glare-free lighting.

OTHER CONFIGURATIONS

Multifunction

Ambient / Exam

Exam

SOLAR SERIES
Multifunction 2 x 4 LED Light

The Solar Series Multifunction 2 x 4 LED Light offers a traditional patient room lighting design in this multi-compartment ceiling fixture. The standard functions include Reading, Ambient, and Exam lighting with the option to add a Chart and Night light. A basket section provides general ambient lighting while the parabolic louvered lens provides direct and controlled exam lighting to support caregivers. Glare free lenses and reflectors cover all of the lighting functions and ensure patient comfort while maximizing clinical efficiencies.

MULTIPLE DIRECTIONAL LIGHT CONFIGURATIONS

Multifunction

Indirect Ambient

SOLAR SERIES
Duo Med LED Light

Create an environment that nurtures healing while maximizing clinical workflow efficiencies. The asymmetrical design of the Duo Med LED Multifunction Light makes it the ideal solution for areas where light can be obstructed by equipment such as booms, allowing for maximum light output onto the patient bed. The modern design provides visual comfort for patients and enables the clinician to perform their tasks with the highest degree of efficiency.

OTHER CONFIGURATIONS

Reading (optional)

Exam / Ambient

LUNAR LED NIGHT LIGHT

Blue

Amber

White 2700K

White 3000K

White 3500K

The Lunar LED Night Lights bring a soft, low level of illumination to the hospital room. This Night Light allows the clinical staff and patients to navigate safely through dark rooms. The unique faceplate has minimal protrusion from the wall and provides even light distribution. For ultimate convenience, the Lunar Night Light is available with optional photocell technology.

LOUVERED LED NIGHT LIGHT

Amico's Louvered LED Night Light provides subtle lighting that is perfect for any healthcare environment.

Its energy-efficient LED lasts for 50,000 hours. The Louvered Series Night Lights are available in 2700K, 3000K, and 3500K soft white, amber, and blue colors.

SOLAR SERIES
Surgical Luminaire LED Light

The Solar Series Surgical Luminaire LED Light is designed to be used as perimeter lighting in the Operating Room. These specialized luminaires provide supplementary illumination that allows clinicians to perform their tasks with a great deal of precision and accuracy. The Solar Surgical Luminaire offers high-level illumination and a color rendering index of 80 to 90+ to meet all the demands required in a surgical suite. The Symmetrical / Asymmetrical lens used is designed to reduce shadowing and glare. Optional Green LEDs can be used to optimize visibility by reducing glare and reflection on the monitor and minimizing eye strain for surgeons during long procedures.

OTHER CONFIGURATIONS

SOLAR SERIES CLEANROOM
Cleanroom 2 x 4 LED Light

The Solar Series Cleanroom LED Light (CLS) by Amico is a recessed IC-rated IP65 luminaire suitable for ISO Class 3 grid or flanged cleanroom applications. This wet location luminaire features an inset or overlapping door with a triple gasket for a reliable seal. Available with NSF/ANSI 2 for Food Zone, Splash Zone and Non-Food Zone Applications. The Solar Series Cleanroom fixtures are available in 2 x 4, 2 x 2, and 1 x 4 models.

OTHER CONFIGURATIONS

MIRA 50, 65 & 90 LED LIGHT

The Mira Series LED Light offers the latest advancements in mirror surgery, procedure and examination lighting. Its 36 precisely positioned LEDs provide superior shadow control, depth of field, and light intensity to provide caregivers with advanced visual acuity. Clinicians can easily customize light intensity with five levels of dimming and an endo mode conveniently located on the light head for easy access. The Mira's removable handle is ergonomically positioned off to the side to maximize the light field and can be rotated to electronically focus the light beam to a concentrated 6" for more targeted surgical procedures. Our Mira Series LED Exam lights come in 50,000, 65,000 and 90,000 Lux options and offer a CRI of 95+ for advanced color accuracy.

GAMMA 50 LED LIGHT

Small but mighty, the Gamma 50 LED can be used in various settings throughout the hospital and is most suitable for minor examinations. It's compact and innovative design allows for maximum light output without sacrificing functionality. The maintenance-free LED's provide 50,000 Lux of light, a CRI of 95+, and a color temperature of 4500K for exceptional color accuracy. A capacitive touch keypad is located on the back of the light for ultimate convenience.

Introducing Amico's most versatile light yet. The Nova is a fully recessed exam light and can be used in various settings throughout the hospital environment. It is safe, easy to operate and provides the ultimate infection control. Precisely positioned LEDs and 360 degrees rotation allow for increased illumination and superior shadow control, making the NOVA the perfect alternative to ceiling mounted exam lights.

MOTORIZED EXAM LIGHTING
Nova LED Motorized Exam Light

The Nova LED Motorized Light is a fully recessed exam light and can be used in various settings throughout the hospital environment. This fixture provides a safe alternative to ceiling-mounted exam lighting and offers a convenient solution in low-ceiling areas. Its precisely positioned LEDs and 360 degrees of rotation allow for increased illumination and superior shadow control to support caregivers with advanced visual acuity. The Nova can be installed in multiple configurations within the room to maximize light output and enhance clinical efficiencies. This versatile fixture is ideal for Labor & Delivery, Patient Rooms, Intensive Care Units, Emergency Departments, and many more.

NOVA WALL CONTROL KEYPAD

Our innovative backlit wall control keypad offers precise and convenient control of light intensity and direction. Control up to two fixtures on one keypad with easy-to-use tactile buttons and customizable dimming. The wall control keypad is designed with a Mylar cover for ease of cleaning and infection control.

SOLAR SERIES
MRI Suite LED Solutions

Amico is proud to present our portfolio of MRI lighting solutions designed for an Enhanced Patient Experience. Choose any combination of lighting products to create your ideal design, or request a custom design project. All of our fixtures are certified to meet MRI vendor EMI requirements making them an ideal choice for any MRI suite.

Illuminating Health and Wellness

Support a healing and nurturing environment with New Star Lighting's complete range of healthcare solutions. Our premier luminaires provide proper illumination levels, architectural designs, accurate color rendering, and durable construction built to endure vigorous cleaning processes.

APPLICATIONS:

- Surgical Suites
- Patient Rooms
- Examination Rooms
- Skilled Nursing Facilities
- Behavioral Health
- Hospice
- Operating Rooms
- Common Areas
- MRI/Imaging Suites
- Corridors
- Nursing Stations
- Pharmacies

SURGICAL SUITE

Green Star Surgical Series

- Available with White and Green LEDs or Green LEDs only
- Certified IP65, ISO3, and NSF rated
- Universal recessed housing for grid and flange installations
- Lumen output up to 9800lm (Green). Up to 18750lm (White).

PATIENT ROOM

Lumanique Multi-Function Series

- Provides Ambient, Exam, Reading, and Night Light functions
- Dimensional lens creates an architectural statement
- Internal chambers separate functions preventing light leaks
- Lumen output up to 21500lm

BEHAVIORAL HEALTH

AuraMed High Abuse

- Cold rolled steel or stainless steel housing for durability
- Fastened with tamper resistant Torx Head screws
- Optional remote emergency battery, dimming, and step dimming
- Lumen output up to 12200lm

MRI SUITE

StarMed Downlight

- 6" aperture reduces glare
- Sealed and enclosed non-ferrous aluminum housing
- Remote power supply with optional dimming capabilities
- Lumen output up to 2210lm

NURSING STATION

StarTile Series

- Surface, grid, and flange installations
- Pair with Image overlay to create a unique mural
- Optional angled recessed frame for a non-clinical aesthetic
- Lumen output up to 7900lm

LIGHTING FOR CLEANROOMS

New Star Lighting offers a variety of lighting solutions for cleanroom applications like laboratories, manufacturing facilities, processing plants, and research areas. We ensure our luminaires meet certified performance criteria such as NSF standards for corrosion resistance, Ingress Protection (IP) ratings to protect against dust and water, and ISO standards for certified air cleanliness. As such, our lighting solutions restrain the growth of pathogens with antimicrobial finishes, withstands rigorous cleaning protocols, and allow for minimal maintenance. From downlights to recessed troffers, New Star Lighting's product line accommodates the challenging environments of cleanroom spaces and continues to serve as the optimal choice for the industry.

StarMed Downlight

The StarMed Downlight withstands against contamination within an enclosed, sealed housing. The extruded aluminum heat sink provides maximum thermal dissipation.

ESC Series

Available in recessed or surface mount, the ESC ensures a strong seal with silicone gasketing which prevents air contaminants from entering the fixture.

The StarClean Series

The StarClean Series incorporates construction that withstands intense maintenance and cleaning procedures while maintaining proper illumination levels. This line of troffers features an enclosed design throughout the product line to ensure a strong seal preventing dust, particles, bacteria, and other pathogens from entering or growing on the fixture.

StarClean Series Recessed

With up to 25000lm, the StarClean Recessed Series provides the protection needed for sensitive environments in grid or flange installations.

StarClean Top Access Series

The StarClean Top Access Series allows for easy maintenance from the plenum side of the ceiling. Available in grid or flange installations, as well as custom ceilings.

StarClean V Series

The StarClean V Series incorporates an overlapping frame with silicone gasketing to prevent contamination. This fixture features an LED night light switch to allow for light level selection.

StarClean Vivarium Series

The Vivarium Series provides optimal light conditions with red LEDs. The illumination from the colored LEDs allow for proper nighttime visual conditions to adhere to maintenance of experimental animals, while regulating the environment to obtain reproducible research results.

StarClean Corner Series

The StarClean Corner Series features corner surface mounting to allow for direct light distribution. With a smooth side-out lens, this fixture endures rigorous cleaning procedures.

PERFORMANCE

VISUAL COMFORT

The Viper's unique optical design combines visual uniformity with the precise distribution of a Total Internal Reflection (TIR) optic. Five times the luminous surface area provides optimal light distribution plus visual comfort.

Approximate Total Luminous Area	Approximate Total Luminous Area
100%	200%
100%	200%

BACKLIGHT CONTROL

Less than 12% of the light emitted out of Micro Stroke and Stroke is thrown behind the pole, meaning 88% is utilized on application. That inherently means less energy is wasted on light that is not being used! For even greater backlight control, additional backlight control shields can be used to limit spill down to 5%.

VERSATILITY

DESIGN

The new Viper Micro Stroke Area and Flood designs boast of complementary contemporary or traditional architecture. Additional features such as multiple mounting options, adjustable pole doors and an IP65 rating are standard offerings in this exceptional versatile fixture.

PERFORMANCE

Each product is available with a variety of lumen outputs and distributions to serve a wide range of applications. Where flexibility allows us to customize the output to meet specific design criteria. The precise beam control of the Viper helps reduce energy consumption and light trespass while providing high uniformity and visual equity.

TECHNOLOGY

Simple or dynamic controls are available in every product combination to give solutions for ever-changing code requirements and additional energy savings.
